

## FALSE SIGNAL WAS DISPLAYED

Boy in the Black Tower in Railroad Yard.

## FOUR TRAINMEN WERE KILLED

ACCIDENT ON THE BALTIMORE & OHIO AT CUMBERLAND, MD.

Cumberland, Md., Jan. 16.—Through the alleged interference of a messenger boy a wreck was caused on the Baltimore & Ohio railroad east of Cumberland early today in which four employees of the Baltimore & Ohio railroad were killed and three injured.

**The Dead.**  
W. T. Simms, engineer.  
W. J. Moran, fireman.  
D. H. Sneeringer, fireman.  
John Butler, engineer.  
Those injured: T. J. Hendrix, conductor, Baltimore, bruised about the body; W. N. Christopher, engineer, Baltimore, bruised; Kinney, conductor, Cumberland.

**False Signal Displayed.**  
The wreck was due to the displaying of a false signal, giving a clear track for eastbound passenger train No. 16, when in the next block ahead there was standing on the track a caboose and two engines. The passenger train was drawn by two engines, and these crashed through the caboose and engines which obstructed the track. Luckily the train had not attained its full speed and was only moving at the rate of about twenty miles an hour when the collision came. The postal car of the passenger train was derailed, but the passenger coaches did not leave the track, and the occupants escaped injury.

It is charged that a messenger boy named Turner, who was in the block tower when No. 16 came along, and hearing the engineer's whistle for clear tracks, pulled a lever giving him a clear signal.

The operator had, it is explained, previously set the signal at danger. While his attention was being devoted to communicating with the block station, the boy, it is alleged, pulled the lever that gave the oncoming train the signal that it had a clear block ahead, and the tower operator was not aware of what was done until the crash came.

**MURDER AND SUICIDE.**  
St. Louis, Jan. 16.—A special to the Post-Dispatch from Purdy, Mo., says: J. M. Huff, proprietor of the hotel here, shot and killed his wife early today and then killed himself. Domestic troubles are believed to have caused the tragedy.

## REMARKABLE SUCCESS.

Of a New Catarrh Cure.

A large and constantly increasing majority of the American people are catarrh sufferers. This is not entirely the result of our changeable climate, but because modern investigation has clearly proven that many diseases, known by other names, are really catarrh. Formerly the name catarrh was applied almost exclusively to the common nasal catarrh, but the throat, stomach, liver, bladder, kidneys and intestines are subject to catarrhal diseases as well as the nasal passages.

In fact, wherever there is mucous membrane there is a feeding ground for catarrh.

The usual remedies, inhalers, sprays, douches or powders, have been practically failures, as far as anything more than temporary relief was concerned, because they simply dry up the mucus secretions, without having the remotest effect upon the blood and liver, which are the real sources of catarrhal diseases.

It has been known for some years that the radical cure of catarrh could never come from local applications, but from an internal remedy, acting on the blood and expelling the catarrhal poison from the system.

A new internal preparation, which has been on the market only a short time, has met with remarkable success as a genuine, radical cure for catarrh. It may be found in any drug store, sold under the name of Stuart's Catarrh Tablets, large pleasant tasting lozenges, composed principally of antiseptic ingredients, Blood Root, Red Gum and similar catarrh specific, with remarkably satisfactory results. They clear the head and throat more effectively and lastingly than any douches or inhalers that I have ever seen, and although they are what is called a patent medicine and sold by druggists, I do not hesitate to recommend them, as I know them to be free from cocaine and opiates, and that even a little child may use them with entire safety.

Any sufferer from nasal catarrh, throat or bronchial trouble, catarrh of the stomach, liver or bladder, will find Stuart's Catarrh Tablets remarkably effective, pleasant and convenient, and your druggist will tell you they are absolutely free from any injurious drug.

## BIG CAPITAL BEHIND MOFFAT

Prominent New York Financiers Directors of Moffat Bank.

## UNION PACIFIC IMPROVEMENT

INCREASED FREIGHT RATES MAY FORCE UP PRICES.

One of the most important steps in banking circles of recent date is the announcement that George F. Baker and James P. Hyde of New York City have been elected directors of the First National bank of Denver. This is the bank of which David H. Moffat, the promoter of the Denver, Northwestern & Pacific railroad, is the president. There is considerable significance in the election, the force of which will not be lost upon those who have been following the movements of the Denver railroad project.

Mr. Baker is the president of the First National bank of New York City, and perhaps few men in the country have more money under their immediate control. Mr. Hyde is the vice president and one of the principal shareholders in the Equitable Life Society assurance. The principal offices of the company are located in a beautiful eight-story granite building on lower Broadway, a few blocks from the postoffice. Behind this man is almost limitless capital, and the block occupied by the company on Broadway is the wealth and business success of the company.

## WILL DOUBLE TRACK.

Union Pacific Will Double Track at Enormous Expense.

Cheyenne, Wyo., Jan. 16.—It is learned from a reliable authority here that the Union Pacific will double track its entire line from Omaha to Ogden, and that as much of the work as possible will be done during the present year. Employment agents in all parts of the country have been advised that the Union Pacific will need 10,000 laborers during the year.

It is said that the Union Pacific directors have authorized the expenditure of \$10,000,000 in new branches, double track and other improvements. Chief among the latter are a number of proposed new stations on the Nebraska and Wyoming divisions, and the completion of the work of ballasting the entire system with Sherman gravel.

## IRON WILL GO UP.

Freight Rates Advanced on Mining Machinery and Piping.

The increase in the freight rates on mining machinery and iron pipes will force local dealers to increase the price of those goods from 10 to 12 1/2 per cent within the next couple of months. The new rate went into effect on Jan. 1.

In anticipation of the advance, the local firms placed large orders for machinery and pipe, to be shipped on or before Dec. 31, 1902. The majority of these orders are now in transit. When those supplies have been sold the local firms will be compelled to raise the price on goods shipped from the east to replenish their stock.

Prior to Jan. 1, the rate from Chicago on mining machinery was 50 cents per 100 pounds. The new tariff sheets have increased it to \$1.25 per 100 pounds. From Ohio common points the old rate was 55 cents per 100 pounds. Now is \$1.40.

When the local merchants are compelled to meet the increased freight rates by raising the price of their machinery, the advance will be about 12 1/2 per cent. Six months from now a pump that now sells for \$1,000, will then cost \$1,125.

The majority of the iron pipe sold in Salt Lake and Utah comes from Pittsburgh. Prior to Jan. 1, the freight rate was about 90 cents per 100 pounds. It is now \$1.25. That means an advance of 10 per cent in pipe when the merchants make their advance in prices in conformity with the actions of the railroads.

## DEATHS AT INFIRMARY.

Superintendent Jones Files Annual Report With Commissioners.

The annual report of William R. Jones, jr., superintendent of the county infirmaries, which was yesterday filed with the board of county commissioners, shows that during the year there were twenty deaths at that institution, as against twenty-seven during 1901; thirty-nine in 1900, and thirty in 1899. During the year there were ninety admissions, and sixty-one discharges. During December there were more people in the infirmaries than any other month, the number being ninety-seven. In November fourteen people were admitted, the largest number for any one month during the year. In July only three applied for and received admission.

## PROVISION FOR WARSHIPS.

Washington, Jan. 16.—The house committee on naval affairs today adopted the provision made in the naval appropriation bill prepared by a sub-committee, authorizing the construction of three large battleships and one cruiser.

## WATER PLANS MAY GO THROUGH

North Jordan Stockholders Experience Change of Heart.

## ARE FAVORABLY IMPRESSED

COLONEL HOLMES SAYS MERGER MEANS SURE WATER SUPPLY.

A change of heart has been experienced by some of the shareholders of the North Jordan Canal company, and the consolidation plans may go through. Some of the members of the company were in the city Thursday and called upon Attorney Franklin S. Richards to have the merger question explained to them. They were opposed to the scheme when they came. It is understood that they were favorably impressed with the idea when they went away.

Colonel E. F. Holmes said yesterday that the consolidation of the four canal companies was the best and really the only way to gain the aid of the government. He said:

"The North Jordan Canal company now holds the key to the situation, but I believe the obstacles in the way of the merger bid fair to be removed. A delegation of stockholders of the company was in the city Thursday to look into the matter. I think that they came here convinced that they did not want consolidation. They left with entirely different ideas on the subject."

"The stockholders have nothing to risk by the consolidation. It will not affect them in any way excepting, if possible, to make them more secure. Some of them have entertained the suspicion that there is a 'nigger in the fence,' but when the matter is explained to them they are convinced that it is the best thing to do. It is really the only thing to do. It is the easiest way to settle the water question. The lake is not the only place money will have to be laid out. The Jordan river will have to receive attention, and about \$250,000 will be laid out in improvements at the upper part of this stream."

## Must Be One Body.

"The government can do this, but it cannot take hold of the question unless it can treat with one body, and the interests of that body must be harmonious. This can be brought about by combining the four companies. The position of the stockholders would be no different than it is now. The only excuse advanced by the directors the other day was that they did not want to lose the identity of the company, but they are doing nothing that do in order to benefit from the improvements that the government is willing to make."

Regarding the plan of trading the city water rights in Utah lake for the Cottonwood rights, Colonel Holmes

## Ayer's Cherry Pectoral

For hard colds, chronic coughs. Ask your doctor if he has better advice. He knows how it soothes, heals.

said that the parties affected would probably be glad to do this as they would prefer to have complete control of the lake water. On the other hand, the city would make a good trade so far as the quality of the water is concerned. The Big Cottonwood alone would insure an exhaustless supply, and the stream is very little affected even when other sources show a decreased supply of water. The proposed reservoir around the lake would insure an unfailing supply from that source, and the supply would be further protected by the proposed government improvements.

## PARK CITY BONANZAS

Tell their own story in dividends, but there are great properties just developing which must be seen to be appreciated. Special mining excursion to this great camp Sunday, Jan. 18, via Rio Grande Western railway, \$1.50 for the round trip.

## BROWN HASN'T PAID ALIMONY

Wife Complains to Court and He Is Cited to Appear.

## MUST ANSWER ON JAN. 23

RIGHT OF A UNION TO BOYCOTT RAISED IN A SUIT.

Former Senator Arthur Brown has failed to comply with the order of the court, directing him to pay his wife, Isabelle Cameron Brown, who is suing him for separate maintenance, \$150 per month temporary alimony. That fact was set forth in a petition which Mrs. Brown yesterday filed with Judge Hall.

Immediately his honor issued an order to show cause against the defendant, ordering him to appear before him on Jan. 23, at 2 o'clock, and explain why, and give his reasons, if he has any, for not complying with the mandate of the court. When Judge Hall awarded Mrs. Brown \$150 alimony he specified that it should be paid on or before the 15th of each month; that the first payment must be made within the next five days after the decree was recorded, which was some days ago.

## RIGHT OF UNION TO BOYCOTT.

Question Is Raised in a Suit Brought by Robert B. Harper.

Local union No. 19, United Association of Journeymen Plumbers, Gasfitters, Steamfitters and Steamfitters' Helpers of the United States and Canada, has been made defendant in an action brought by Robert B. Harper, who seeks to recover \$500, alleged to have been lost through a boycott placed upon him by the organization. The suit indirectly involves the right of a union to boycott a man who refuses to affiliate with it.

Plaintiff avers that union No. 19 is

an "unincorporated, voluntary association of men, embracing within its membership a large majority of journeymen plumbers, etc., of Salt Lake; that it affiliates with local union No. 11, of Butte, Mont.; that 'one of the purposes of said association is by their concerted action to make it impossible for any journeyman plumber, gasfitter or steamfitter to secure employment anywhere unless he shall first submit himself to the rules of the local association when he seeks employment, and submit to its exactions.' Harper then alleges that 'the defendants, conspiring and confederating together to oppress plaintiff and extort money from him wrongfully, claimed and pretended' that the Butte lodge levied a fine of \$500 against him, and made the threat that unless he paid the same in installments, they would 'make it impossible for plaintiff to earn any money for the support of himself and his family.'

Harper at first refused to pay the fine, but finally consented to do so, because, as he claims, he found it 'impossible to get work.' After paying \$150 in installments, Harper ceased his payments. Then, he alleges, he was boycotted and was hindered from securing work by the union refusing to permit any contractor to employ him. He now sues to recover \$500 damages, for loss of work, and the \$150 he paid the union.

**Secured Guardian to Join Army.**  
So anxious was Tony Calbough, a minor, to join the army, that he went to the expense and trouble yesterday to have a guardian appointed for him, who would immediately give his consent to his enlistment. When the matter came up before Judge W. C. Hall and the circumstances were explained to him, he appointed William M. Brown guardian for Calbough, and fixed his bond at \$25, which was immediately given.

## Asks Divorce From Alleged Bigamist

Louise Esmay, now known as Louise Garrison, seeks a divorce from Fred Garrison, otherwise known as Martin Garrison, on the ground that he had a wife living and undivorced, residing in New York, at the time he married her. She further alleges that her husband's given name is Fred, and not Martin. The couple were married in Salt Lake on Oct. 28, 1902.

## MRS. C. HAPEMAN IN CITY.

Is President of the Supreme Grand Chapter of the P. E. O.

Mrs. Carrie Hapeman of Minden, Neb., president of the supreme grand chapter of the P. E. O., arrived in the city yesterday and was met by Mrs. John Reed and Mrs. McMahon of the local branch. Mrs. Hapeman is a woman well known in P. E. O. work throughout the country, having held numerous responsible positions in that order prior to her election to the presidency at the national meeting held in Des Moines over a year ago. Mrs. Hapeman will be entertained during her stay in the city by Mrs. Charles McMahon, president of the local branch of the order. This afternoon, at the regular meeting, she will be tendered a reception at the home of Mrs. A. G. Andrews. Mrs. Hapeman has made a tour of Colorado, visiting the principal societies throughout the state, and goes from here to Denver to attend the state meeting there next week.
